DETAILED ACTION

Response to Amendment

- 1. The present Office Action is taken in response to applicant's communication filed August 14, 2006 responding to Non-Final rejection dated May 12, 2006. Applicant's amendment and or arguments have been considered with the results that follow.
- 2. Claims 1-14 are pending in the application under prosecution.

Response to Arguments

3. Applicant's arguments filed August 14, 2006 have been fully considered but they are not persuasive.

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. The following remarks are noted:

Claim 1:

- The first occurrence of all abbreviation should be spelled out for clarity whether or not the abbreviation is considered well-known to one of ordinary skill in the art.
- "the target information handling system" lacks proper antecedent basis in the claim. Thus, RAID, DHCP, and PXE should be spelled out for clarity.
- The claims should recite: "at least one of ... and ..." in lieu of "or" (line 7).

Application/Control Number: 10/700,709 Page 3

Art Unit: 2186

 The word "boot" should be inserted between "PXE" and "file" for clarity (paragraph starting with "a deployment engine operable").

Claim 5:

 The claim recite "a vendor-specific format to a vendor independent format", such is not clear as "specific" appears to be the same as "independent" in this line of disclosure.

Claims 9 and 11 repeating the defects of base claims 1 and 5, respectively, should be treated as well.

Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 5. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1:

 The first occurrence of all abbreviation should be spelled out for clarity whether or not the abbreviation is considered well-known to one of ordinary skill in the art. Thus, RAID, DHCP, and PXE should be spelled out for clarity. Since one can be his/her own lexicographer, it is unclear as to the meanings of these abbreviations.

- "the target information handling system" lacks proper antecedent basis in the claim.
- The claims should recite: "at least one of ... and ..." in lieu of "or" (line 7).
- The word "boot" should be inserted between "PXE" and "file" for clarity (paragraph starting with "a deployment engine operable").

Claim 5:

 The claim recite "a vendor-specific format to a vendor independent format", such is not clear as "specific" appears to be the same as "independent" in this line of disclosure.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 20030208587 (Sauer, Martin) teaches method of configuring and/or controlling an electronically controllable, modular facility, automatic server configuration may include hardware settings in BIOS, configuration of large memories such as magnetic disks (RAID configuration) and user-specific configuration of a large number of server computers.

Art Unit: 2186

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pierre-Michel Bataille whose telephone number is (571) 272-4178. The examiner can normally be reached on Mon-Fri (8:00A to 4:30P).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew M. Kim can be reached on (571) 272-4182. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
